

IES: The Lighting Society is pleased to announce its membership to the National Building and Surveying Alliance (NBSA).

NBSA is a cooperative formed for the primary purpose of providing members of each participant organisation with the best possible services and benefits whilst also offering an opportunity for joint activities and mutual co-operation between institutes.

With a combined membership of over 30,000 members, we join other organisations at NBSA including Australian Housing Institute, Australian Institute of Landscape Architects, The Building Designers Association of Australia, Facility Management Association of Australia and The National Association of Women in Construction.
