

April 2018

## FROM THE CHAPTER CHAIRPERSON

Hi Everyone

First of the year's VARDA edition. Thanks very much to Stephen Collard for cajoling and encouraging the CMC team to provide input to keep you all up to date.

This year is a very special year for the Lighting Society in New Zealand. While going through some paperwork received from Brian Ellis, I discovered that the books for the IESNZ (ie before we joined with Australia), opened in 1978 with contributions from GEC (NZ) Ltd and Thorn Electrical. So this is the 40<sup>th</sup> anniversary year of the lighting society in New Zealand!!!

Our Awards Dinner team (Cedric) has been busy coordinating a date and location for this years awards. We are pleased as punch to advise that this year the Awards celebration and 40<sup>th</sup> Anniversary celebration will be held at TePapa Museum on Friday 23<sup>rd</sup> November!!! We have had a lot of interest from the industry and can advise that one of our two available Platinum Sponsor positions has been taken by Zumtobel group. Many thanks to the team. Our sponsorship packages (including ticket pricing) are included in this month's VARDA for you all to take advantage of!

## NOTES FROM THE EDITOR

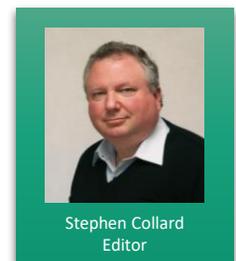

Welcome to the April edition of Varda.

This years edition of Light and Build has seen a definite shift in thinking on sustainability. The industry seems to be tired of waiting for political agendas to catch up with public sentiment and is forging ahead with some new thinking like making many luminaires with modular parts. So (for example) if a driver were to fail, the whole fitting won't need to be replaced, just the failed part. When you consider the huge leap in sustainability that LED products have made over lamped products, going further will keep our industry at the pinnacle of "green" thinking across the globe.

I hope you enjoy this edition of Varda.

Cheers

Stephen

## EDUCATION REPORT

### IESANZ New Zealand Chapter

Susan Mander

On Wednesday 18 April we were pleased to see another 17 students receive their IES-accredited lighting qualifications from Massey University. Thirteen of those students were able to attend the graduation ceremony in person, which gave a special ending to all of their hard work. Congratulations to all of the graduating students!

Special mention is made of the two Dux students:

Manpreet Sandhu (Year 1)

Rochelle Wong (Year 2)

Together with Massey, the IES hosted a dinner at Lone Star on the night prior to graduation. There we were treated to excellent food, great company and a fantastic talk by Ali McGraw. A graduating student, Ali treated us to highlights from her recent trip to Frankfurt's Light+Building 2018.

This year there are 43 students across the two year groups at Massey. We are fortunate to have again secured the services of Domenico De Vincentis for our design classes. We are also grateful for the continued support of lighting specialists who give their time to pass on knowledge to the next generation of enthusiasts. So far in 2018 we've been visited by Richard Ponting, Kevin Cawley, Laurie Cook, and Richard Bracebridge.

Thanks for your support.

Susan Mander

## 2018 AWARDS DINNER

The IES Awards Committee would like to invite you all to Wellington on the 23<sup>rd</sup> of November for the 2018 edition of the IES Lighting Awards Dinner. This year's event will be held at Te Papa on Wellington's fantastic waterfront, and close to many bars in Wellington's party zone of Courtney Place. See later in this issue for sponsorship and ticket information.

### **In Memoriam - Lance Woodward – 11 May 2018**

Lance has been a pillar of the lighting industry in New Zealand. He started as an electrician and came to Thorn Lighting in the early days as a salesman. He enjoyed the hunt of the sale, and was in his element when talking to the customer all be it the contractor, wholesaler, architect or engineer. His loyalty to his company Thorn Lighting and his contribution to the lighting industry should be truly celebrated (the IESNZ commenced in 1978 with financial contributions from Thorn Electrical!). The NZ Chapter Management Committee on behalf of the Lighting Society pass our condolences to his wife Gayle and family.

# COMMUNICATION UPDATE

Hi Everyone,

## Website report:

As you may be aware the societies' website has begun its transformation into a more user friendly and attractive vehicle to drive information flow and membership.

In the rebuilding phase, New Zealand as a Chapter, are unable to directly load technical presentations etc to the appropriate section of the site but for those of you who missed it Adam's presentation on the IOT we have requested head office in Australia load it up for all to see.

As a Chapter we are only able to edit the pages outlined in red in the image below, NZ rather than NSW of course.

- Newsletter
- Chapter Diary
- News
- Events
- Gallery
- Committee Documents

CHAPTERS	MEMBERS	EVENTS	EDUCATIO
New South Wales		NSW Newsletter: Sidelights	
Queensland		NSW Chapter Diary	
South Australia		NSW Management Committee	
Victoria & Tasmania		NSW Corporate Members	
Western Australia		NSW News	
New Zealand		NSW Events	
		NSW Awards	
		NSW Chapter Gallery	
		NSW Committee Documents	
		NSW Tech Meeting Presentations	

If anyone has content for any of these categories please let me know and I can add it to the NZ Chapter page on the website.

Stay up-to-date with the Lighting Society news and events by following us on LinkedIn, Facebook, Twitter.

## S & Q UPDATE

Congratulations to Laurie Cook who recently upgraded to both Fellow and RLP. Laurie joins Stephen Muir from Christchurch who is also a current RLP.

It is important to note Registered Lighting Practitioner (RLP) is in addition to, and does not replace, the FIES or MIES status of members. Members qualifying for RLP will receive a Certificate of Registration, will be recognised on the Society website and in the “Lighting” magazine and will be authorised to use the postnominal RLP after FIES or MIES (as appropriate) on their business cards and other documents.

We strongly encourage FIES and MIES members whose major business activity is **the practice of lighting design** to apply for the additional qualification of RLP.

For further information go to: <http://www.iesanz.org/membership/registered-lighting-practitioner/>

Regards

David Arthur.

## STANDARDS UPDATE

Hello All

The teams have been hard at work with their respective standards. A big thanks to our representation on these teams, Graeme Culling, and Clark Houltram.

LG-010 draft standard AS/NZS4282 Obtrusive light is now out for public comment – please read and comment on it..

LG-002 committee has started on AS/NZS1158.1.1

DZ4243 (NZS4243 Part 2) Energy Efficiency – Large Buildings : Lighting. Amendment draft 1 this has been out for public consultation and review. It has now been approved and has been published.

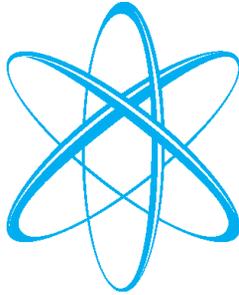

Regards

**Laurie Cook – FIES, RLP**

## **MHL** ENHANCING SPACE & FORM WITH LIGHT

### **We are Hiring!**

And seeking referrals from our network for the following roles:

- **Business Development/Account Manager**
- **Project Coordinator**
- **Lighting Designer**
- **Marketing Coordinator**

**MHL** is the NZ distributor for some of the worlds leading lighting brands. We have established ourselves as a national supplier in the commercial market for over 20 years.

Our business is growing, and as a result, we are looking to welcome new members to both our Christchurch and Auckland teams. Ideally, we are looking for referrals that have experience in the lighting industry or similar, however, we are most interested in attitude and aptitude and ensuring that there is an alignment to cultural fit.

**Contact** Angie on **021 119 3436** or email **angie@hexagongroup.co.nz** for a confidential discussion and further information.

# NZ Chapter Lighting Awards Dinner and 40th Anniversary of IES in New Zealand

The Illuminating Engineering Society of Australia and New Zealand comprises six Chapters which are located in the Australian States (New South Wales, Queensland, South Australia, Victoria and Western Australia) and **New Zealand**.

The aim of the Society is the advancement of the art and science of illumination and the dissemination of knowledge to all interested parties. This is achieved in several ways, including, holding technical events with guest speakers, having representation on lighting standards committees, chapter newsletters and an official magazine.

The Society's diversified membership includes engineers, architects, educators, students, contractors, manufacturers and designers.

## Friday 23<sup>th</sup> November 2018 - Wellington Te Papa Museum

The IES Lighting Awards are held to celebrate and promote the highest quality lighting and luminaire design in New Zealand. All entries are put through a rigorous judging regime and award recipients are announced at the Lighting Awards Dinner function. This year our Gala Dinner will be held in Wellington's TePapa Museum and is shaping up to be an epic event, as it is also the 40<sup>th</sup> year since the IESNZ books were opened in Dec 1978 with \$100 donations from GEC (NZ) Ltd and Thorn Electrical.

As always, a key factor in the success of the dinner function is obtaining financial support from sponsors. Planning for this year's event is already under way and we are seeking Sponsors to be involved in the IES National Lighting Awards Dinner 2018.

We do hope you will be able to support this worthwhile event and help promote your company to the New Zealand Lighting Industry.

Please refer the following information which details the different levels of sponsorship opportunities available. We hope that you will find something to suit.
