

QLD CHAPTER NEWSLETTER

Photo: The Princess Theatre

The Illuminating Engineering Society of Australia and New Zealand is an organization with Chapters in the five mainland States of Australia and New Zealand. The Society operates under the name: IES: The Lighting Society.

The aim of the Society is the advancement of the art and science of illumination and the dissemination of knowledge to all interested parties. The Society's diversified membership includes engineers, architects, educators, students, contractors, manufacturers and designers.

Arcus

Arcus is the official newsletter of the QLD Chapter of the Illuminating Engineering Society of Australia and New Zealand.

Memberships

There are two types of membership available; individual and corporate (or company).

For further information on membership contact Queensland Chapter at the below address or visit the ies website.

QLD Chapter Management Committee

President / Secretary: Andrew Chase

Vice President: Steve Hare

Board Representatives: Trent Dutton & Scott Forbes

Treasurer: Michael Davies

Communications / Arcus: Scott McCarthy & Richard Ralph

Lighting Innovation Awards: Lee Wegner

Membership: Gillian Isoardi & Patrick Rident-Tercelet

Technical Meetings: Ricky Coombs & Richard Ralph

Advocacy: Paul Doig

Annual Dinner: Andrew Chase, Lee Wegner & Richard Ralph

Lighting Design Awards: Steve Hare & Ricky Combs

Education / Courses: Mark Devin

Advertising

To advertise into Arcus please contact the QLD Chapter Secretary at the email address provided on this page.

Pricing for advertising is \$20 for members and \$50 for non-members.

Member Page

IES Qld Chapter members are welcome to submit information on employment changes – including new positions, promotions, and 'available for hire', for inclusion in Arcus. Members wishing to be included are requested to send a photo and a short blurb (20 – 30 words) for inclusion in the newsletter, to the editor, Richard Ralph, at richard.ralph@inlite.com.au

PRESIDENT'S MESSAGE

Welcome all members to the September ARCUS

The AGM took place on the 29th of August 2022 and a new CMC has been formed. some current members of the CMC are staying on until after the awards night, but they will be stepping down at the end of the year.

a huge thank you goes to Trent Dutton who is served the IES as QLD chapter president and also the national board thank you for your efforts, Trent you'll be missed. Also stepping down after a long period of time with the IES is Gillian Isoardi and I would like to say thank you to her for all of her efforts over long period of time. Finally the third person stepping down from the CMC is Scott McCarthy who be taking a year off whilst serving other organizations in the same capacity. Thank you to Scott. We will all be given the opportunity to say goodbye and thank you to these three CMC members at the annual dinner at the Princess theatre in November 2022.

The Queensland CMC is as per the previous page, the joint roles indicate a handover post our awards night.

The Awards Night Dinner is planned for the 11th November as previously advised and there are only a few tables left to purchase so if you are thinking of buying a table now would be a good time. my contact details and also Lee Wegner's contact details can be found on the invitation in this document.

thank you also to the sponsors who have decided to support our awards night yet again your help and assistance is much appreciated by the Queensland CMC. don't forget the awards night has a 20s theme whilst not compulsory we would love to see some great 1920s themed costumes for a bit of fun.

As always, please don't forget about our social media platforms:

Or feel free to message me at qldpresident@iesanz.org

HEALTH

I have documented my recent battle with mild cancer. It seems that every type of cancer is the deadliest and should be tested for immediately. Some forms are rarer than others, the more common seem to claim they are the deadliest. Looking at the figure's, cancer does have a high mortality rate but comparable suicide rates due to mental illness are higher.

Cancer in most cases can be detected and treated. Medical specialists know much more about the markers for cancer than mental illness. Of course, which test, when and how is difficult with cancer. One line of thought is that every birthday one should ask their GP for a general check over and advise which tests should be carried out. Most of us have been touched by mental illness, it does not discriminate, has no exact demographic, and at times is hard to diagnose. Often, it's the subtle changes, like increases in addictive behaviour such as substance abuse and gambling often involving a withdrawal from normal activities. Self-diagnosis is a useful tool in cancer discovery, but rarely effective for sufferers of mental illness.

There are plenty of online tools to help people to deal with mental illness with a national day to raise awareness. I review these sites on a regular basis and believe that this knowledge may help somebody sometime. I do not pretend to be a professional, but any help has value and may prevent an incident. Hopefully your workplace or social group has culture of "mates looking after mates".

Mark Devin

TECHNICAL MEETINGS

The IES QLD CMC is organising an outdoor lighting event as part of the Technical Meetings which hopefully will be an inclusive to all people interested in the lighting industry. The structure consists of lighting up dedicated areas on a single site by teams using fixtures supplied from various vendors.

A site has been chosen with initial approval from the site managers. It will be a fun night in the middle of winter of next year.

What is required is a group of volunteers to develop this event and take ownership of it. If you are interested, please contact Mark Devin on 0450 449 292

QLD Chapter – Technical Meetings

CALL OUT

To Our Lighting Community

We are looking for individuals or companies that have a lighting topic of interest that they would like to share at a future technical presentation for our Queensland members and associated industries.

If you are eager to discuss an opportunity to share your knowledge, please contact:
Ricky Coombs – qldtechnical@iesanz.org

Light Reach is a global multi-program solar lighting initiative by lighting think-tank PhoScope designed to leapfrog over utility grids to fight light poverty and use light to boost the social, cultural and economic well-being of underserved communities worldwide. Light Reach Programs use a sustainable and educational project model to bring light for work and play for all ages, and share knowledge about light for practical and artistic applications indoors and outdoors.

*Light is a right.
Lives in the dark matter.
Lighting is about life after dark.*

that will bring light to:
families 2,500
buildings 300
streets 5
parks 1
playgrounds 1
orphanages 1
schools (pending)

LIGHT FOR LEBANON

@lightforleb

Why Light for Lebanon?

On August 4th, 2020 the largest non-nuclear explosion in history tore through Beirut and decimated entire neighborhoods, leaving over 250,000 residents in the dark.

Residents who cannot afford generators or oil have no light at home, and street conditions are unsafe.

What is Light for Lebanon?

In September 2020 Light Reach and Lebanese activist and lighting designer Manal Kahale partnered to launch the new program Light For Lebanon and bring solar-powered lighting to Beirut's homes and public spaces.

Latest News

CURRENT Covid19 Status : **OPEN**
PAST Covid status: Full lockdown: 30 days
Curfew: 85 days

Our team of volunteers first met with residents to assess their needs and surveying the night conditions. We also promptly partnered with several NGOs, including Beit el Baraka, Live Love Beirut, Al Chafaka and Nusaned, and we continue to meet new stakeholders on the ground to locate the people who need light.

After providing solar lights to heroic firefighters at Tarik el Jdideh fire station of the Beirut Fire Brigade, we proceeded to use Quarantina as a pilot area.

We have now successfully distributed thousands of portable lights to families and installed hundreds of security lights for building access, and we installed ten streetlights on Salah Labaki street with Live Love Beirut. We also completed an installation for the mobile playground "Participplay" prototype with Nusaned, and a temporary installation for a cultural event by Temporary Art Platform. We gave lights to the Dar AL Awlad Orphanage, and we are in the process of planning several urban and landscape lighting projects for the next few months in coordination as well as more product distribution with our partner NGOs. We are now raising funds for Phases 2 and 3.
