PROUD SPONSOR OF THE IES LIGHTING AWARDS FOR OVER 30 YEARS

ZUMTOBEL Group

Passion for Light.

Thorn Lighting has been manufacturing and distributing lighting products in New Zealand for over 80 years.

Thorn Lighting purchased Electric Products (NZ) Ltd in the mid-1960s and continued to operate successfully as Thorn Lighting (NZ) Ltd until 2000 when the company was purchased by Austrian based lighting company, Zumtobel Group. To this day, the THORN Lighting brand continues to be the most successful lighting brand in New Zealand.

Zumtobel Group's lighting technology brand, TRIDONIC, plays a leading role worldwide in the manufacture of hardware and software for lighting systems (LED light sources, LED drivers, sensors and lighting management).

The Zumtobel Group service offering is one of the most comprehensive in the entire lighting industry.

Zumtobel Group is an international lighting group and a leading supplier of innovative lighting solutions and related services through its core brands: ZUMTOBEL, THORN and TRIDONIC.

Zumtobel Group's global production network spans four continents with sales offices in 90 countries employing over 5000 personnel worldwide.

Auckland – **Vector Lights Auckland Harbour Bridge**

Presented by **Clint Dulieu, Technical Designer**

Powered by a mix of leading technology, including solar, battery and peer-to-peer systems, Vector Lights transforms the Auckland Harbour Bridge as a guiding light toward a smart energy future.

Part of a ten-year smart energy partnership between Vector and Auckland Council, Vector Lights is an experience and a destination, giving Aucklanders a focal point for celebration and recognition.

The lighting installation, comprised of tens of thousands of individually controllable RGB pixels, was designed by Australian company Mandylights with equipment provided by Show Technology and installed by a mixture of local Auckland labour and international specialists.

Clint Dulieu, technical designer for the project, will give a talk on how the project was released from conception through to delivery and the unique challenges associated with it.
